(54) Title: FAST APPLICABLE HAIR PIECE PROVIDED WITH A WEAVING BAND COMPLETELY INTEGRATED WITH BASIC HAIR AND METHOD FOR ATTACHING THEREOF

(57) Abstract: The invention relates to a fast applicable hair piece (1) for obtaining a special esthetical effect like e.g. a colour effect or a hair volume effect having a remarkable high wearing comfort for the user. The hair piece (1) comprises at least one thin, broad and flat hair piece (3) consisting of a number of hairs (20). The hair bundle (3, 3', 3'') is provided at its free end with a lightweight and thin elongated weaving band (2, 2', 2'') made from hair or from another suitable material like e.g. cotton or a synthetic material comprising regularly weaving elements (11). This weaving band is characterized by connection opening (4, 4', 4'', 31) provided at regular mutual distance. A suitable number of basic hairs (9, 9', 9'') may be passed through said connection openings (4, 4', 4'', 31). As a result a temporarily, durable however eventually easily removable connection between the hair (1) piece and the basic hair (6) will be formed, in such a way that the hair piece (1) is always reusable. Furthermore the invention relates to a method for attaching a hair piece (1).
